BRINGING OUR NATION *back to Life*

LIFE MATTERS
2026 ANNUAL REPORT

Life Matters
WORLDWIDE

It is a time to come together and join forces with national, state, and local voices who understand the urgency of this moment and the critical need for meaningful engagement.

Across our nation, the challenges are real and growing. But so is the opportunity before us.

This life-saving work moves forward when people choose to step in, to stand together, and to strengthen those fighting on the front lines.

When that happens lives are saved, families are built, and generations are shaped in ways we may never fully see.

Together, this is more than a mission. It is a movement that transforms communities and upholds the dignity of life for years to come.

Thank you for being part of it.

Carolyn
President
Life Matters Worldwide

MINISTRY UPDATE:

Throughout the nation, leaders of pregnancy centers are facing increasing pressure and hostility, yet they continue to offer compassionate care, genuine support, and truthful information to the women and men they serve.

Life Matters is dedicated to encouraging, strengthening, and connecting these pregnancy center and state coalition leaders as they advocate for and protect life every single day.

Currently, pregnancy center coalitions operate in at least 41 states. The demand for leadership, unity, and collaboration has never been more urgent.

That's why we initiated the Coalition Leadership Network (CLN). Life Matters Worldwide is not merely speculating; we are responding to direct requests from coalition leaders.

They asked for this network, contributed to its design, and are already reaping its benefits. A testament to its success is the Michigan Coalition of Pregnancy Centers, which Life Matters Worldwide helped to establish and enhance.

National reach...Local impact!

Through Coalition Leadership Network:

- **State Coalition leaders are equipped and empowered,** enabling them to better support the pregnancy centers throughout their state and local communities.
- **Leaders gain access to a national network of peers** who truly understand their challenges. They connect through secure platforms, regular meetings, and in-person gatherings that foster lasting relationships.
- **Sustainable leadership is established** by offering coaching, training, and spiritual enrichment that keeps leaders healthy, effective, and confident for years to come.
- **Barriers to excellence are eliminated** by funding CLN at no cost to participating leaders. Every coalition leader, regardless of budget, can access the resources and training they need most.
- **Impact is amplified through collaboration.** When leaders work together, they achieve what isolated centers cannot. They combine resources, tackle challenges together, and initiate programs that benefit entire states.

"I believe the Coalition Leadership Network will help unify and fortify the life-affirming movement in a way that ultimately serves women, protects life, and builds a future rooted in compassion and courage. I wholeheartedly commend Life Matters Worldwide for their leadership and vision and encourage organizations across the prolife community to engage with and support this important initiative."

-Amy Ford, Embrace Grace

BRINGING OUR NATION *back to Life*

When one leader is strengthened, impact is multiplied.

Hundreds of centers become equipped.

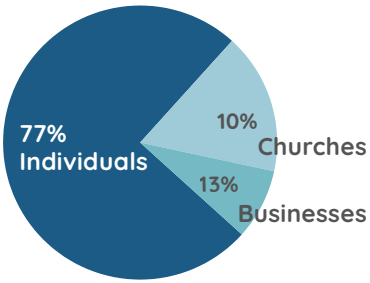

Thousands of families receive support.

Countless lives are transformed, and women find HELP, HOPE, & LIFE!
